

## **Tips to get the most out of learning in Grovo**

**Understand the goal of Microlearning.** Microlearning focuses on a single-concept and uses mixed-media to engage learners (like you!) seamlessly in the flow of your workday.

You can check out our [interview with Summer Salomonsen](#), Chief Learning Officer at Grovo to learn more about our Microlearning® philosophy!

**Learn on your time.** The Grovo library is full of [binge-worthy Microlearning® lessons](#) that fit into your day so you can learn anytime, anywhere, and on any mobile device. So the next time you take a coffee break add some Grovo learning on the side and develop a new skill before you finish your cup!

**Set your own pace.** The Grovo lesson player grabs your attention with mixed-media cards that let you set the pace of your learning. So go at the speed that works for you and be sure you've captured the information on one card before moving on to the next.

**Answer the assessment questions.** These questions are there to help guide your learning. Whether in a browsed lesson or graded assignment, take the time to complete these assessments to practice your understanding of the concept just presented.

**Take the next steps.** Grovo is good for your growth! Challenge yourself to [apply what you learn](#) in each Grovo lesson to develop essential skills and behaviors you need to drive continued professional development.

**Keep the conversation going.** Keep the learning going by discussing your understanding of key concepts and takeaways with peers. To start the conversation, think about

- What is the main takeaway from the lesson that has stuck with you?
- How are you going to put this takeaway into action?
- What do you hope to achieve or impact with this new action?
